Dutch Hill Wind Power Project  
Cohocton, Steuben County  
06PR06594

Dear Mr. Fox:

The Office of Parks, Recreation and Historic Preservation (OPRHP) has reviewed the information submitted for this project (*Cultural Resource Management Report, Phase 1B Archaeological / Architectural Reconnaissance, Dutch Hill Wind Power Project, Town of Cohocton, Steuben County, New York. Public Archaeology Facility, Binghamton University, 2006*). Our review has been in accordance with Section 14.09 of the New York Parks, Recreation and Historic Preservation Law and relevant implementing regulations.

OPRHP concurs with the conclusions and recommendations presented in the above-referenced report.

The identified archaeological sites have been given the following Unique Site Numbers (USN):

A10109.000035 - Dutch Hill 1 Prehistoric Site (SUBI-2618)  
A10109.000036 - Davis Hollow Road Historic Site (SUBI-2619)

The two identified archaeological sites should be avoided or further investigated (Phase II), as recommended. If avoidance is the chosen option, specific avoidance plans should be submitted to this office for review. Additional study is recommended for architectural resources.

OPRHP concurrence applies only to the project design described in the above-referenced report.

If you have any questions please don't hesitate to contact me.

Sincerely,

Philip A. Perazio, OPRHP
